

## **College of the Muscogee Nation Cares Act: Student Portion Report - FINAL**

**January 7, 2022**

The College of the Muscogee Nation has signed and returned a certificate and agreement form requesting HEERF III student funds and has used, and intends to continue using, the funds as emergency financial aid grants to students.

The College of the Muscogee Nation received \$364,043.00 as the student portion. Of those funds received, CMN disbursed \$364,043.00 directly to students as of December 31, 2021.

Estimated number of students eligible during this quarter: 300

Number of students who have received grant during this quarter: 192

An application process for student emergency grants was implemented in the second quarter. Student applications were reviewed by an Emergency Aid committee, and approved or denied funding based on the committee's decision. Amounts were varied. Applicants were encouraged to provide documentation to support their application, but this documentation was not a required element.

In order to receive emergency aid funds, students were required to indicate on a signed, dated form, what expenses they had incurred due to the closure of campus and COVID 19. The categories on this form were derived directly from the student's cost of attendance.
